> Hope all is going well for you! I am still going back and forth between Paris and the States. In Sarasota now for a few weeks. Over the years we have done a nice distribution biz with colleges and universities. (educational distribution). I always loved what you did with Jack Thorp and I puilled it out after all these years and it still looks great. Out opinion is that the film is licenseable to the edu market and we have buyers for it available. Let me know if this can interest you. Not the big bucks of the world but just the same ....good work going to good places. Over the years I have sold our Warhol Series to well over 500 colleges around the world. That got us started on the university trail, thanks to a good friend who suggested that market.
