Hi!
I still love this film, but back in the old dvd days, it didn't seem to work for our price points with academic college and university libraries.
Now, many of our films are STREAMING on KANOPY. You may know who they are. We can reach 4000 US colleges and university libraries and 83,000 public libraries worldwide. I was wondering if you'd like to have us stream On the Trail....
Kanopy is purely an academic educational network and it only does libraries so it's not an AVOD or Netflix commercial system.
Please let me know what you think.
All the best-P
PS: Let me know how you are doing. We are fine still working, same trials! Here in Sarasota for the moment.
