

As of today 11/23/22, Mr. David Neff has continued to steal my videos and use them on his YouTube channel. for some reason YouTube has not honored their policy to keep videos in question removed during proceedings. Even though I provided them with evidence of the action taken in the time allowed, both videos have been reinstated against their own policy. Mr. David Neff is now under the impression he is ok to continue with the theft and infringement of my material as he has posted new videos not included in this claim.
