Mr. Bolger:

This is the third email I have received requesting the same materials. The requested materials concern the pending state-court case, Case No. 2026SC001560, a proceeding separate from the copyright infringement claims before the Copyright Claims Board.

The materials to which you refer were provided to the state court during the hearing and were retained by the court. Your emails have not established the relevance of those materials to the CCB proceeding. I therefore object to the request in its current form.

I will comply with any order issued by the state court or the CCB, as well as any discovery request properly made and served in accordance with the Scheduling Order and applicable procedures.
